## **DETAILED ACTION**

## Election/Restrictions

- 1. Claims 42 61 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made without traverse in the reply filed on 13 October 2004.
- 2. Applicant's election without traverse of Group I in the reply filed on 13 October 2004 is acknowledged.
- 3. Applicant has cancelled the non-elected claims.

## Allowable Subject Matter

- 4. Claims 1-41 and 62-80 are allowed over the prior art of record.
- 5. The following is an examiner's statement of reasons for allowance: Wang et al. in the U.
- S. Patent 6,099,662 A substantially discloses the claimed invention. However, Wang does not

disclose, teach or suggest brushing the CMPed surface after the CMP step. In fact, Wang

teaches that brushing will damage the polished surface. Instead, Wang teaches a series of

spraying techniques to clean the surface. Wang also does not mention drying the surface prior to

any of the spraying steps.

6. Hall et al. in the US Patent Application Publication US 2004/0058546 A1; substantially teaches the claimed invention except for brushing the surface after the polishing step and also

Hall dries the surface after the spraying step. Hall is silent on the brushing step and instead just rinses the surface with deionized water prior to spraying with a high pH solution; afterwards the surface is rinsed again and dried. For the reasons stated above the claimed invention as a whole is neither anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
